GitHub: <https://github.com/licalsinj>

I am a full stack developer with strong communication skills, entrepreneurial accounting experience, and a passion for learning new languages and tools. I enjoy improving processes through automation, elimination, and iteration. I'm looking for a challenging role at a customer focused fintech SaaS company.

Core Competencies

C# ♦ JavaScript ♦ Python ♦ SQL ♦ HTML ♦ CSS ♦ Git ♦ Revision & Improvement of Processes ♦
Financial Report Design ♦ Software Performance Investigation ♦ Defect Queue Administration ♦ Data/API
Management ♦ Cross-functional Coordination ♦ Agile Scrum Methodology ♦ Software as a Service

Experience

- Aug 2021 – **Step Into The Road Publishing** Plano, TX
Present **IT Analyst**
- Created and maintained 3 websites for marketing and sales purposes
 - Generate monthly financial reports by using an API to integrate bank with tax and budget tools
 - Integrated Kit email service provider with websites to grow marketing email list
 - Managed automated backups on private server of employee and website data
- Jul 2018 – **ResMan Property Management Software** Plano, TX
Aug 2021 **Product Manager**
- Migrated from a long render time in browser report tool to a more performant paginated tool
 - Maintained reports and improved system performance with a team of 5 devs and 2 QA testers
 - Outlined a data export tool, comparing the risks to benefits and presented results to executives
 - Increased product quality by decreasing defect queue from 35 to 7 by end of 2019
 - Improved custom report request process implementing order forms to clarify requirements
- Software Developer**
- Created new reports with a JavaScript front end, SQL stored procedures and C# data objects
 - Reviewed and tested other developers code before git check-in
 - Investigated and resolved high severity bugs post release in my code and others
 - Helped product manager understand technical requirements of enhancements and defects
 - Presented release items to the Change Advisory Board with risk levels and rollback strategy
 - Partook in scrum training with a certified scrum coach and volunteered to be scrum master
 - Ran scrum ceremonies as scrum master intervening as necessary to keep meeting efficient
- Mar 2017 – **Rockwall OpenSpace** Rockwall, TX
Jun 2018 **IT Analyst**
- Managed the development of a website along with integrating a booking website
 - Opened a coworking space to help work from home professionals find community
 - Determined potential revenue and risk of vacant retail locations based on rent and size of each
 - Gathered comps from other coworking spaces to determine an acceptable membership pricing
 - Acquired necessary amenities within budget including desks, equipment, and appliances
- Aug 2015 – **Quorum Business Solutions** Dallas, TX
May 2016 **Software Developer**
- Developed custom software by modifying Quorum's existing products to meet specifications
 - Compared SQL database tables and joined them to create custom data objects
 - Used .NET MVCs to update create custom web screens for client's interface
 - Designed web screens using C#, C++, JavaScript, CSS, HTML, and CSHTML

Education

Lubbock, TX

Texas Tech University – Bachelors of Science, Electrical Engineering
